

## Schedule

The normal schedule for Parenting by Design's 8-lesson parenting series is to meet weekly. Each weekly meeting can follow this general format:

Start on time. This will establish your expectations for the class and be a good example for parents as they learn to model the parenting principles for their kids.

Pray for parents and that day's lesson.

Homework review. Spend 5-10 minutes talking about the prior week's homework.

Watch the video. The videos vary in length, so be sure to leave enough time.

Discuss. If you have enough time, open up the floor for thoughts, discussion and questions. Each lesson has some suggested discussion questions at the end of the workbook chapter for that lesson. Don't worry about knowing the answers – if you need help with a question, just promise to bring the answer with you next week and e-mail or call us for help at [info@parentingbydesign.com](mailto:info@parentingbydesign.com) or 877-357-2112 (toll-free).

Homework. Read the homework assignment to the class and ask them if they will commit to giving it a try.

Pray for the class and the kids.
